SUMMARY

Information Technology student specializing in Mobile and Web Application Development, with hands-on project experience using JavaScript, Java, Dart, React, Node.js, Flutter, and MongoDB. Familiar with Git, GitHub, and deploying web projects with Vercel. Seeking a software development internship where I can contribute to real projects, strengthen my technical skills, and learn from an experienced team.

EDUCATION

National University Manila **August 2023 - Present**

Bachelor of Science in Information Technology Major in Mobile and Web Application

- Dean's Lister

PROJECT EXPERIENCE

Main Developer - E-Commerce Website Project

National University Manila **June 2025**

- Designed and developed a fully functional e-commerce website as part of a project. Implemented features including user authentication, product catalog, shopping cart, and checkout system.
- Utilized HTML, CSS, JavaScript, and PHP with a MySQL database backend.
- Led a team of 4 students and coordinated front-end and back-end integration.
- Applied responsive web design principles for mobile compatibility.

BiyaHero - Front-End Developer, Capstone Project

National University Manila **May 2026**

- Built the frontend interface for the capstone website using React and Vite.
- Added dropdown and search/filter interactions to help users find information.
- Integrated a Leaflet map into the interface

TECHNICAL SKILLS

- **Programming Language:** JavaScript, Java, SQL, Dart
- **Web Development:** React, Vite, Node.js, HTML, CSS
- **Mobile Development:** Flutter
- **Database:** MongoDB
- **Tools & Platforms:** Github, Git
- **Deployment & Hosting:** Vercel
